Dec.

INDEX TO THE ADVANCEMENT OF SCIENCE

Volume XIX, Nos. 77–82, 1962–63 May 1962 – Mar. 1964

Figures in heavy type preceding page references indicate the parts of *The Advancement of Science* in which references will be found. Titles marked with an asterisk (*) appear only in summary form in the record of Sectional Transactions at the Manchester Meeting (**81**, 427–468). Titles of communications are frequently abbreviated.

Sci R v. 19-20 (no. 77-88)

ADAMS, T. D., Stratigraphical study of some Holocene foraminifera from Cardigan Bay, **81**, 437*
Addiction, *see* Habituation and,
Advertising, psychological techniques, P. R. Baker, D. Gordon, R. Greenel and D. R. Rotherham, **81**, 454*
Africa, geographical factors in economic inter-dependence in E. and W., H. R. J. Davies, D. N. McMaster, W. B. Morgan and J. C. Pugh, **81**, 442*
AGER, T. J., Prison psychology—work in allocation centres, **81**, 453*
Agriculture, interplay between technical and social changes in, J. C. Clews, A. Digby, M. Ginsberg, J. G. Jenkins, J. L. Joy, G. D. Mitchell and J. Thirsk, **81**, 449*
modern trends and developments in mechanisation of, Claude Culpin, **78**, 166
ALDRED, K., Electronic analogue computer, **81**, 467*
ALVIN, Dr. K. L., Early fossil Pinaceae, **81**, 458*
Anglo-American satellites, British experiments in, M. O. Robins, **78**, 97
Animal nutrition, A. A. Bindloss, K. L. Blaxter and D. Lewis, **81**, 463*
Antibiotics, A. J. Birch, B. W. Langley, G. G. F. Newton and G. A. Snow, **81**, 431*
Applied science, development of: a twenty-year forecast, Prof. D. G. Christopherson, **78**, 89
Arthropod design, R. R. Askew, R. Dennell, P. T. Haskell, K. C. Highnam and J. H. Kennaugh, **81**, 437*
ASHBY, Sir Eric, President of the Association—a profile, **79**, 190
ASKEW, Dr. R. R., Parasitism in the arthropoda, **81**, 438*
ATTWOOD, B. W., Developments in method of forming paper and paperboard web, **81**, 461*
Automatic teaching, R. L. Reid, **77**, 37
AWAD, Prof. H., Geomorphology of Morocco, **81**, 442*

BAILEY, Dr. F. G., Politics and society of Orissa (India), **77**, 25
BAKER, P. R., Communication research in the advertising agency, **81**, 454*
BASKIND, Dr. R., Particle board, **81**, 460*
BASSETT, Dr. D. A., Valentian rocks of the Bala district, **81**, 435*
BASSEY, Dr. Michael, Science teaching today and the citizen of tomorrow, **77**, 73
Behaviour, evolution and genetics of, J. H. Crook, S. A. Pearce and U. Weidmann, **81**, 440*
BELLAMY, D. J., Formation of peats, **81**, 458*
BENJAMIN, Dr. B., Changes in marriage incidence in Western society in last thirty years, **81**, 465*
BINDLOSS, A. A., Developments in animal nutrition, **81**, 463*
BINNS, Dr. W. O., Upland soils and their potential for tree growth, **81**, 443*
Biochemistry, lipid cofactors in, Prof. R. A. Morton, **81**, 385, 451
Biology of fresh and brackish waters, D. Bryce, E. J. Popham, D. W. Sutcliffe and M. Pugh Thomas, **81**, 439*
BIRCH, Prof. A. J., Tailoring antibiotics, **81**, 431*
BIRCH, M. C., Study of the coleoptera of Burton Marsh, **81**, 467*
BIRD, Dr. J., Peruvian textiles, **81**, 449*
BIRKS, H. J. B., Vegetational history of a Lancashire peat bog, **81**, 467*
BISHOP, Dr. P. M. F., Hormonal control of disorders of reproduction, **77**, 21
BLACK, Prof. D. A. K., Transport processes in the mammalian kidney, **81**, 452*
BLACK, Prof. R. D. Collison, William Stanley Jevons and the economists of his time, **81**, 444*
BLACKABY, F. T., Recent performance of the British economy, **81**, 444, **82**, 489
BLAXTER, Dr. K. L., Energy metabolism of ruminants, **81**, 463*
BLEASDALE, Dr. J. K. A., Effects of spacing on vegetable production, **81**, 463*
BLOWER, J. G., Life histories of some common British snake-millipedes, **81**, 460*
BODEN, S. M., Composition of milk and its variation, **81**, 464*
BONDI, Prof. H., Why scientists talk, **79**, 259
BONNER, J., Planning and a wages policy, **81**, 444*
BOOKS:
for the general reader, N.B.L. list, **77**, 82, **78**, 173, **79**, 256, **81**, 423, **82**, 567
reviews, **77**, 84, **79**, 258
Botanists, education, recruitment and employment of, J. K. Brierley, J. Heslop-Harrison and J. Hutchinson, **81**, 456*
Boundaries of science, Dr. Magnus Pyke, **77**, 50
BRADLEY, E. M., Thin metallic films and computers, **81**, 428*
BRAIN, Lord, Recent work on the physiological basis of speech, **79**, 207
BRIDGES, E. M., Pedogenesis in the South Pennines, **81**, 443*
BRIER, A. P., Geographical survey of the Romanche valley, **81**, 467*
BRIERLEY, Dr. J. K., Biology and the education of the sixth-former, **81**, 456*
Britain's expanding cities, E. Brooks, S. R. Craxford and F. J. McCulloch, **81**, 442*
BRITISH ASSOCIATION NEWS:
Aberdeen, Annual Meeting, **82**, 522
Advancement of Science, **81**, 421
Manchester, Annual Meeting, **77**, 42, **78**, 150, **80**, 271
publications, list of, **78**, 152
Science fair, West Riding, **77**, 42, **78**, 149
place of, in primary education, **81**, 421
Secretary of Association, **82**, 522
British economy, recent performance of, F.T. Blackaby, **81**, 444, **82**, 489
British experiments in Anglo-American satellites, M. O. Robins, **78**, 97
BROADHURST, Dr. F. M., Palaeontology and rates of sedimentation in upper Carboniferous of the Manchester area, **81**, 435*
BROOKES, B. C., Communication between scientists, **81**, 468, **82**, 559
BROOKS, Dr. E., Urban planning problems of Merseyside area, **81**, 443*
BRYCE, Dr. D., Chironomidae (non-biting midges) from freshwater sediments, **81**, 439*
BUDDEN, C. E., Wood pulp, **81**, 461*
BURN, D., Steel industry and planning, **81**, 445*
BYWATERS, Prof. E. G. L., Present-day knowledge of the rheumatic diseases, **81**, 451*

CADMAN, Dr. C. H., Spread of plant virus disease, **81**, 458*
CALDER, Dr. M. G., Mesozoic conifers of southern lands, **81**, 458*
CALDER, Prof. P. Ritchie, Earthlings in the space age, **77**, 11
CAMERON, Dr. A. G. W., Recent results in space physics, **81**, 427*
CAMPBELL, R. F. B., Continuity in primary and secondary education, **81**, 462*
CARMICHAEL, I. S. E., Experimental studies on the origin of pantellerites, **81**, 436*
CARTHY, Dr. J. D., Sensory physiological background to some invertebrate behaviour, **81**, 437*
Catching up with progress, Sir Charles Goodeve, **80**, 303
Cells and embryos, J. Cohen, A. S. G. Curtis, E. N. Willmer and L. Wolpert, **81**, 438*
CHARNLEY, F., Early history of textile manufacture in the Manchester area, **81**, 449*
CHARNLEY, J., Development of an artificial hip-joint, **81**, 447*
CHATT, Dr. J., Organometallic chemistry of the transition metals, **81**, 431*
CHERRY, Prof. E. Colin, Why we have two ears, **79**, 218
CHESTER, Dr. P. F., Advances in the application of superconductivity, **81**, 429*
CHRISTOPHERSON, Prof. D. G., Development of applied science: a twenty-year forecast, **78**, 89
Exploitation of research, **80**, 273, **81**, 445
CLEWS, J. C., Technological advance and social change in the countryside, **81**, 450*
CLOW, Dr. A., Science before the B.A. No. 2—Chemical Industry in 1830, **81**, 467*
CLOWES, Dr. F. A. L., Growing points of plants, **81**, 456*
COAKER, T. H., Insect pests of vegetable crops, **81**, 464*
COBB, Col. M. H., Mapping of Britain, **81**, 441*
COCKCROFT, Sir John, Investment in science, **79**, 181
Scientific research and technological development and the future of industry, **82**, 475
COHEN, Prof. J., Apparent duration and speed of a journey, **81**, 452*
COHEN, Dr. J., Cell interactions in the organs of the adult, **81**, 438*
COHEN, Dr. P., Allegiances and alignments in Yemeni communities in Israel, **81**, 466*
COLHOUN, Prof. J., Environment and crop losses due to diseases, **81**, 457*

JAN 15 1964

Communication, problems of, B. C. Brookes, P. Sargant Florence, E. Graham and J. Maddox, **81**, 468•, **82**, 559
CONNELL, Dr. P. H., Habituation and addiction, with special reference to alcoholism and its treatment, **81**, 450•
CONRAD, Dr. R., A ten-key typewriter, **81**, 454•
CONSTANTINE, Dr. T., A matter of life and death, **81**, 447•
CORRAN, Dr. J. W., Training of industrial food scientists and technologists in the United Kingdom, **78**, 161
CRAXFORD, Dr. S. R., Air pollution and town planning, **81**, 443•
CRONE, G. R., Future of the atlas, **81**, 441•
CROOK, Dr. J. H., Evolution of weaver-bird social systems, **81**, 440•
CROSSLEY, J. R., Changes in wage rates in Britain since 1948, **81**, 444•
CROWFOOT, Miss E. G., Anglo-Saxon textiles, **81**, 449•
CULPIN, Claude, Modern trends and likely developments in the mechanisation of agriculture, **78**, 166
CURTIS, Dr. A. S. G., Cell surface as a source of hereditary information, **81**, 438•
Cyperaceae, new look at, mainly from the tropical standpoint, J. H. Kern, **78**, 141

DAICHES, Prof. D., University education and the unity of knowledge, **81**, 462•
DARLING, E. S., Prison psychology—research, **81**, 454•
Darwin Lectures on *Bursts in evolution*, Dr. M. R. House, **81**, 435, **82**, 499
Form and colour in Nature, Dr. H. Judith Milledge, **80**, 281
DAVIES, H. R. J., Importance of West African element to economic geography of the Sudan, **81**, 442•
Deaf children, education of, A. Ewing, Lady Ewing and T. J. Watson, **81**, 453•
DEARNALEY, E. J., Estimates of endurance, **81**, 454•
DE GRAFT-JOHNSON, K. E., Syrian immigrants in Ghana, **81**, 466•
DE LA WARR, Earl, Science and hunger, **80**, 294, **81**, 463
DENNELL, Prof. R., Arthropod design—introduction, **81**, 437•
DENT, J. G., Liberal education for all, **81**, 462•
DENTON, Dr. E. J., Keeping up in the sea, **81**, 440•
DIGBY, A., Interplay between technical and social changes in agriculture—introduction, **81**, 449•
Time the catalyst: or why we should study the material culture of primitive peoples, **80**, 349, **81**, 449
DOUGLAS, Dr. J. W. B., Waste of talent, **81**, 462, **82**, 564

EAGAR, Dr. R. M. C., Age of the Southern Irish coal measures with a revision of the faunal sequence in the Leicester Coalfield, **81**, 436•
Earthlings in the space age, Prof. P. Ritchie Calder, **77**, 11
East Anglia, planning of, R. J. S. Hookway, **77**, 67
Economics, defence of, against elimination from the B.A., Prof. J. K. Ingram, **82**, 524
of under-developed countries, W. B. Reddaway, **80**, 314, **81**, 445
EDDY, Prof. A., Enzyme mechanisms in active transport, **81**, 452•
EDGAR, A. D., Phase equilibrium studies in system diopside-acmite-nepheline-albite-water, **81**, 436•
Educational progress, social factors in, J. W. B. Douglas, W. Taylor and G. Wenninger, **81**, 462•
EDWARDS, Dr. D. B. G., 'Atlas', **81**, 430•
EDWARDS, M. V., Marginal aspects of modern British forestry, **80**, 338, **81**, 459
Electricity, Direct production of, from the kinetic energy of fast moving electrically-conducting gases, Prof. M. W. Thring and Dr. R. G. Siddall, **77**, 5
Electron transport—*see* Lipid cofactors and,
EMERY, Dr. F. E., Technology and social organisation, **81**, 466•
English as an international language, Prof. B. Pattison, 6x, 370, 468
EPSTEIN, Dr. A. L., Immigrants to N. Rhodesian towns, **81**, 466•
Social change in New Britain, **81**, 448•
ERGOROV, Prof.– Russian satellites, **81**, 427•
Evolution, bursts in, Dr. M. R. House, **81**, 435, **82**, 499
EWING, Sir Alexander, Linguistic development and mental growth in hearing-impaired children, **81**, 453•
EWING, Lady, Psychological variables in training of young deaf children, **81**, 453•
Experimental anthropology, H. W. M. Hodges, **81** 449•
petrology, I. S. E. Carmichael, A. D. Edgar, E. D. Lacey, W. S. Mackenzie, J. Nolan and J. Tarney, **81**, 436•
psychology, applied, R. Conrad, E. J. Dearnaley, P. R. A. Lang and P. H. Oliver, **81**, 454•
Exploitation of research, Prof. D. G. Christopherson, **80**, 273, **81**, 445
EYRE, Dr. S. R., Nature of deterrent factors in marginal environments of the Pennines, **81**, 443•

Fauna of forest litter, J. G. Blower, A. J. Hayes, P. W. E. Murphy and J. E. Satchell, **81**, 460•
FINLAYSON, Dr. L. H., Place of zoology in biological education, **81**, 439•
FITCH, J. H., Prison psychologists—selection and training, **81**, 454•
FLORENCE, Prof. P. Sargant, Basic English for social sciences, **81**, 468•
Food scientists, training of, and technologists in the United Kingdom, Dr. J. W. Corran, **78**, 161
FOOT, A. S., Influence of the dairy herd on milk composition, **81**, 464•
FORD, J. E., Scientific development of textile fibres, **81**, 429•
Forest litter—*see* Fauna of,
produce—*see* Marketing of,
Forestry, marginal aspects of modern British, M. V. Edwards, 80, 338, **81**, 459
Forests for leisure and pleasure, E. C. Mobbs and G. B. Ryle, **81**, 459•
Form and colour in nature, Dr. H. Judith Milledge, **80**, 281
Fossil conifers, K. L. Alvin, M. G. Calder, T. M. Harris and D. L. Smith, **81**, 458•
FRANKS, Dr. J. W., Pollen studies of lowland deposits in Lancashire and Cheshire, **81**, 458•
FREEMAN, T. W., The Manchester conurbation, **81**, 440•
FRENCH, R. A., The making of the Russian landscape, **81**, 444•

GANE, Dr. R., Storage aspects of senescence in plants, **81**, 457•
GARTON, C. G., Thin films in the field of micro-circuits, **81**, 428•
GEE, Prof. G., Structure and properties of elastomers, **81**, 432•
GEMMILL, M. G., Development in materials for electricity generation **81**, 446•
GILL, Dr. S., New uses for the computer, **81**, 447•
GINSBERG, Prof. M., Facts and values, **81**, 407, 465
Interplay between technical and social changes in agriculture—introduction, **81**, 449•
GIRDLER, Dr. R. W., Continental drift and evolution of new oceans **81**, 434•
Glaciers, growth and thickness round N. Atlantic, H. H. Lamb G. Manley, C. D. Piggott, G. de Q. Robin, F. W. Shotton and F. M. Trotter, **81**, 434•
GLASS, Prof. D. V., Social sciences in British universities, **78**, 154
GLUCKMAN, Prof. M., Social sciences in British universities, **78**, 154
GLYNN, Dr. L. E., Some pathogenic mechanisms in the rheumatic diseases, **81**, 452•
GOLDE, Dr. R. H., The lightning conductor, **81**, 427•
GOODEVE, Sir Charles, Catching up with progress, **80**, 303
GOODWIN, G. E., Pulp production—forester's viewpoint, **81**, 460•
GORDON, D., Psychology in market research and advertising, **81**, 454•
GOULD, S. J., Vocabulary of sociology, **81**, 465•
GRAHAM, Dr. E., Basic English as an international language for science, **81**, 468•
GRAINGER, Dr. J., Forecasting plant disease epidemics, **81**, 457•
GRANT, D., Forestry Commission and its relation to marketing from private estates, **81**, 459•
GREEN, F. H. W., Water balance studies in upland areas, **81**, 443•
GREEN, Dr. J. A., **81**, 430•
GREENEL, Dr. R., Measurement without a ruler, **81**, 454•
GREGORY, Dr. P. H., Spread of plant pathogens in air currents, **81**, 457•, **82**, 481
GREGORY, Dr. S., **81**, 444•
GUDGEON, Dr. H., Chemistry of isocyanates in polymer production, **81**, 432•

Habituation and addiction, P. H. Connell, A. D. Macdonald, B. J. Thomas and C. W. M. Wilson, **81**, 450•
HAMPTON, Dr. H. A., Applications of polyurethanes, **81**, 432•
HANDYSIDE, J. D., Problems of operating within a large company, **81**, 455•
HARDY, Sir Alister, Man and the beneficent sea, **82**, 533
HARRIS, Prof. T. M., Yorkshire Jurassic conifers, **81**, 458•
HASKELL, Dr. P. T., Sensory equipment of insects, **81**, 437•
HASZELDINE, Prof. R. N., Organoboron and organoaluminium compounds, **81**, 431•
HAWORTH, Prof. R. D., The chemistry of the tannins, **81**, 396, 431
HAYES, Dr. A. J., Phthiracaridae and litter breakdown, **81**, 460•
HEALY, M. J. R., Development of computer techniques in research statistics, **81**, 430•
HESLOP-HARRISON, Prof. J., Botanists—recruitment and training: problem from the University viewpoint, **81**, 456•
New light on cell differentiation, **81**, 456•
HEYS, J., Engineers' contribution to road traffic flow—introduction, **81**, 447•
HIGHNAM, Dr. K. C., Hormonal control of growth in arthropods, **81**, 438•
HILLIER, J. A., Does traffic engineering succeed?, **81**, 448•
HODGES, H. W. M., Time factor in primitive pot-making, **81**, 449•
HOLLIDAY, Dr. L., Interaction of technologies, **81**, 432•
HOLTON, Dr. F. A., Energy transformation in animal cells and the cytochrome system, **81**, 451•
HOOD, Prof. M., Significance of music in social configuration, **81**, 450•
HOOKWAY, R. J. S., Planning of East Anglia, **77**, 67
HOOPER, Dr. P. R., Western margin of the layered Skeiland Gabbro, North Norway, **81**, 437•
Hormonal control of disorders of reproduction, Dr. P. M. F. Bishop, **77**, 21
Horticulture, J. K. A. Bleasdale, T. H. Coaker and W. G. Keyworth, **81**, 463•
HOUSE, Dr. M. R., Bursts in evolution, **81**, 435, **82**, 499
HUDSON, Dr. F. L., Impact of pulp and paper on people's lives, **81**, 461•
Hunger, science and, Earl De La Warr, **80**, 294, **81**, 463
HUTCHINSON, Prof. Sir Joseph, Work of the botanist, **81**, 456•

ILLSLEY, Dr. R., Demographic factors influencing the marital relationship, **81**, 465*
Immigrants, P. Cohen, K. E. de Graft-Johnson and A. L. Epstein, **81**, 466*
Industrial organisation, F. E. Emery, D. L. Marples, E. J. Miller and R. W. Revans, **81**, 466*
Industry, scientific research and technological development and future of, Sir John Cockcroft, **82**, 475
INGRAM, Prof. J. K., On the defence of economics against its elimination from the B.A.—1878, **82**, 524
INNES, R. A., Textiles and textile machinery in the museum, **81**, 449*
Investment in science, Sir John Cockcroft, **79**, 181
IRVINE, A. S., Salt in Cheshire—an historical review, **81**, 433*
IRWIN, C. B., Particle board, **81**, 460*

JACKSON, Dr. S. F., Connective tissue cells and fibre formation, **81**, 452*
JAMES, Prof. W. O., Plant respiration and microstructure of plant cells, **81**, 375, 455
Japan, new industrial bases of, Alan D. Walton, **77**, 29,
JENKINS, J. G., Technological improvements and social change in rural West Wales, **81**, 449*
Jevons, W. Stanley—R. D. C. Black, Mrs. Koenekamp and W. Mays, **81**, 444*
JOHNSON, B. A., Prison psychology—diagnostic work with inmates, **81**, 453*
JOHNSON, H. R., Early textile mills, **81**, 449*
JONES, R. A., Discussion by young engineers, **81**, 447*
JOY, J. L., Change from the hoe to plough and tractor in East Africa, **81**, 449*

Kelvin Lecture on *Analysis of starlight*, Dr. B. E. J. Pagel, **81**, 427, **82**, 508
KENN, M. J., Experimental simulating effects of mountain building by sub-crustal convection currents, **81**, 444*
KENNAUGH, J. H., Arthropod integument, **81**, 437*
KERN, J. H., New look at some Cyperaceae mainly from the tropical standpoint, **78**, 141
KEYWORTH, Dr. W. G., Work of the National Vegetable Research Station, **81**, 463*
KHOKLOV, Dr. R. V., Higher education in the U.S.S.R., **81**, 462*
Kinetic energy of fast-moving electrically-conducting gases, direct production of electricity from, Prof. M. W. Thring and Dr. R. G. Siddall, **77**, 5
KING, G., Scientific properties of clothing, **81**, 429*
KING, Prof. W. B. R., Submarine geology—introduction, **81**, 433*
KING-HELE, Dr. D. G., Space navigation, **81**, 430*
KIRK, L. A., Automatic control in paper making, **81**, 446*
KIRWAN, L. P., Nubia—an African frontier zone, **80**, 330, **81**, 442
KITSON-CLARK, Dr. G. S. R., Use of history, **81**, 462*
KOENEKAMP, Mrs., **81**, 445*

LACEY, E. D., Dehydration of minerals and glasses, **81**, 436*
LAKE, J. R., Criterion problem in management selection, **81**, 455*
LAMB, H. H., Role and behaviour of atmosphere and oceans in relation to climatic changes and growth of ice sheets on land, **81**, 434*
LANG, Miss P. R. A., Application of automatic teaching methods to a skill, **81**, 454*
LANGLEY, Dr. B. W., Chemical approaches to cancer chemotherapy, **81**, 432*
LANGLEY, P. C., Geographical survey of the Romanche Valley, **81**, 467*
LATHAM, Dr. R., Plasma physics, **78**, 131
LEACH, Gerald, Science and world affairs—ninth and tenth Pugwash conferences, **80**, 358
LEONARD, Ven. G. D., Wholeness of truth, **81**, 462*
LEWIS, Dr. D., Nutrient requirements of poultry, **81**, 463*
Lightning and the long electric spark, Sir Basil Schonland, **80**, 306, **81**, 427
Lipid cofactors and electron transport, F. A. Holton, R. A. Morton and E. R. Redfearn, **81**, 451*
LIPSEY, Dr. R. G., Can there be a valid theory of wages ?, **78**, 105
LISTER LECTURES:
Can there be a valid theory of wages ?, Dr. R. G. Lipsey, **78**, 105
Making of the Russian landscape, R. A. French, **81**, 444*
LITTLEWOOD, Prof. D. E., Application of group representation to cosmogony, **81**, 430*
LLOYD, Dr. A. G., The amino-polysaccharide-protein complexes of connective tissues, **81**, 451*
Long electric spark, lightning and, Sir Basil Schonland, **80**, 306, **81**, 427
LOOKING AT SCIENCE:
direct teaching films, **77**, 79
food and population, list of films, **79**, 268
physics teaching films, list of, **81**, 425, **82**, 569
LOVE, P. P., Development of an artificial hip-joint, **81**, 447*
LOWENSTEIN, Prof. O. E., Frontiers of knowledge in the study of sensory function, **79**, 222, **81**, 437
LUCKINS, J., Development of pulp and paper industry, **81**, 461*

MCCULLOCH, F. J., Britain's expanding cities—planning problems, **81**, 442*
MACDONALD, Prof. A. D., Habituation and addiction in Britain: findings of the Interdepartmental Committee, 1961, **81**, 450*
MACKENZIE, Dr. W. S., Experimental petrology—introduction, **81**, 436*
origin of pantellerites, **81**, 436*
MCMAHON, Denis, Identification and use of talent, **80**, 322, **81**, 453
